Our Invitation for 1888.

Good crops and good behavior 9 40 a m the face of the globe, more wheat and corn than any county, and no fleas nor mad dogs. Cleveland and Harrison will not be here, but all the rest of the world will be. This will be an old-fashioned Agricultural shape of horse races as would please the most fastidious Kentuckian. Visitors can rest assured of good weather; it has been spoken for in time. If there is anything that could be said to induce a person to come, I wish I could sav it. Come to the Fair. It is health, knowledge and pleasure. Close your houses; put up a sign, "Gone to the Fair to stay a week." The atre will be in full blust. Good hotel on the grounds, two good hotels in town, six nice boarding houses, and "narry" saloon. Ten million pounds of tobacco raised in Chariton this year. Just think of it! It persons desire to change their cash premiums for town lots in Keytesville, an early application should be made to the RULES FOR SPEED RING ecretary. Parents are requested to bring all their children, and have their faces clean. Everything we have will be in the your little ones for just once in your life and come? You are welcome. All we

NUMBER 28.

A WRITER in the Chicago Times learns from the census that there are in the United states 17,382,099 wage earners of whom 905,585 (at the highest estimate in 1886) are protected or work for protected industries. Of these 16,486,514 unprotected wage earners 13,886,304 are working for American wages and the American market, while 2,500,210 are working for foreign wages and a foreign market by producing a surplus not wanted here, which must be sold abroad and the payment for which must be imported. Does protection, we inquire, raise the wages directly of the 13,886,304 unprotected workers? We think not. Then f protection is a benefit, is it not a fact that the highly protected 905 .-585 wage earners are about the only eneficiaries? It certainly looks that way to us. What improvement that comes from this protective system to the masses of laboring men must come from the overflow that benefits the few or it does not come at all. The same writer presents the following facts and figures which will do to read and study as a refutation of a good portion of the Re-
